

Roads Made From Paper

One of our foremost scientists advocates making of roads from paper. The fact that paper is now used in constructing bath tubs, floors and car wheels makes it seem a possible material for roads.

HOWEVER, it is not probable that the rent receipts which have been hoarded up through the years of rent paying will ever be used to construct a home.

You'd better stop the paying rent extravagance and get economical by buying a home.

Why Could'nt Man-Friday Sleep? 'CAUSE ROBINSON CRUSO.

Yes! No doubt Robinson contributed to Friday's wakefulness, but it was almost wholly due to anxiety for his valuables. There are people in Honolulu today who worry for the safety of their valuables, when for a small sum they could rent a box in the Safety Deposit Vault of the Henry Waterhouse Trust Co. Fire-proof, burglar-proof and absolutely private.

SCHOOL TEACHER BECOMES INSANE

Miss Sophie Swensen, a young school teacher, was committed to the Insane Asylum yesterday afternoon, having become violently insane shortly after ten o'clock in the morning. The evidences of insanity came on suddenly while the young lady was on her way from her boarding house to the residence of the Rev. G. D. Edwards, with whom she has been associated closely, since coming to Honolulu, in mission work. The mania developed takes the form of a religious frenzy and for some time the actions of the unfortunate young woman were violent, making it necessary to confine her in the police station until a medical examination into her condition could be concluded made out.

Miss Swensen is a daughter of State Senator Swensen of North Dakota and came to Oahu some time in January last. Since arriving here she has been engaged as a teacher in the public school at Aiea and later in the Pohna school on Punchbowl. She has been prominent in mission work, having been the organist for the Kalia mission of the Christian church and assistant to Mr. Edwards there.

The published statements that Miss Swensen has ever been identified with the mission locally known as the Holy Rollers is denied both by her friends and by Rev. W. Turney, the leader of that branch of the Honolulu missions. Mr. Turney is indignant at the assertions made concerning both his mission and the young lady, whom he does not remember to have ever seen at any of his meetings and who certainly never took the active part ascribed to her.

The Japanese at Waipahu are preparing to build a school at the plantation in connection with the Buddhist church there. They have already collected \$400 towards the building fund.

A RAINIER TOAST

When Higgins started in to speak
Some patriotic phrases,
The town rose up and called him "Freak";
For mad they were as blazes.

The Stars and Stripes he loves to woo,
And this is our conclusion,
No luau, poi, nor holoku
Can break his fond delusion.

The Star Spangled Banner,
Long may she wave!
